🌐 wissem-slim-portfolio.web.app/

A huge admirer of crafting engaging web solutions and building user-friendly interfaces, having led projects with teams of 5+ developers. Known for solving complex problems and reducing project turnaround times by 15%. Enjoy collaborating with cross-functional teams to create impactful experiences. Committed to continuous learning and staying updated with the latest tech trends, focused on innovation and delivering high-quality solutions on time. Always dedicated to writing clean, maintainable code. Let's create something awesome together!

Experience

Omegup   **Nov 2023 – Present**
Software Engineer   *Remote , Full-time, Tunisia*

- Coordinated the development of five React packages (e.g., Date-Picker, Story-Line), ensuring extensibility and responsiveness, which resulted in 100% integration into Omegup School and a 30% improvement in user experience.
- Worked collaboratively with the team to recreate features like dashboards and the scheduler planner for the Omegup school, resulting in a smoother UI, and a 25% enhancement in overall app performance.

Omegup   **Nov 2021 – Oct 2023**
Full Stack Engineer   *Full-time, Tunisia*

- Guided new recruits during their onboarding, facilitating a smooth integration into the team's workflow within the first two weeks of joining.
- Led 5 members frontend team in the mid-stage development of the Bevioo project, supervising and guiding team members throughout the development process, ensuring on-time delivery and providing a seamless solution.
- Utilized Jira for project management while employing Git for version control to manage code changes, actively participating in code reviews that improved code quality by 25% and reduced bugs by 15%.
- Partnered with the lead backend engineer on Bevioo to integrate a new generative RESTful API solution between the frontend and backend, accelerating the development process by 75% and ensuring on-time delivery.
- Oversaw the end-to-end development of multiple features from architecture to implementation, earning management appreciation for streamlining processes and delivering a 100% effective solution.

Minthar, Inc   **Mar 2023 – Sep 2023**
Project Lead   *Remote freelance, Part-Time, KSA*

- Managed the development team for the Naqdi mobile app, ensuring high-quality code and pixel-perfect design. This resulted in a smooth user experience, enhanced performance, and product delivery two weeks ahead of the expected deadline.
- Collaborated with the team to build the solution's infrastructure using system design principles, from database structure and backend APIs to frontend caching and UI. This streamlined development by 30%, allowed for feature customization, and ensured on-time delivery.

Omegup   **Apr 2021 – Oct 2021**
React developer   *Full-time, Tunisia*

- Developed user interfaces and components with React.js and Bootstrap, boosting user engagement by 30% and improving page load times by 20%.
- Worked with the team to implement Redux for state management in the Jupiter Project, leading to enhanced app performance by 20% and minimized front-to-back request traffic through effective caching.

- Decreased development time for the APIA project by 40% by developing reusable components, such as tables, forms, and input fields, that were well-aligned with design specifications.
- Assisted senior team members in enhancing a real-time, RxJS-based caching and 100% offline availability library for managing the Front-end's global state and data-sharing environment.

Projects

Wissem's Portfolio

- Conceptualized and designed the structure and layout of the portfolio, focusing on user experience (UX) and responsive design.
- Built the portfolio using HTML, CSS, and React ,ensuring cross-browser compatibility and mobile responsiveness.

Education

Engineer Degree   **Sep 2014 - Oct 2020**
National School of engineering of Gafsa   *Tunisia*
